Google got you down? Tired of wading through thousands of hits?

There is a better way!

visit our website!

http://www.arrowhead.lib.mn.us, then Services for Library Patrons, then Magazines, Newspapers and Other Databases. Select your mode of access - the library or your home. Now choose a database.
Get high quality information

from the Electronic Library for Minnesota and other databases at the Arrowhead Library System website.

Click on the **ProQuest** link to search the newspapers database. You can search for a topic in 350 newspapers, or search a particular newspaper. For example, use this database to see the latest articles in the Wall Street Journal or the Minneapolis Star Tribune.

Try an **EBSCO** database for general research purposes. Choose one database, like **MasterFILE Premier**, or maximize your hits by choosing **Megafile**. You could read articles from Consumer Reports by using an EBSCO database. Just click on “Publications” in the initial menu, then enter the name of the magazine or journal.

Looking for something to read? Let **NoveList** help you find other books that you might enjoy.

**Biography Resource Center** can help you find biographies on thousands of people throughout history.

Using **Reference USA**, you can find telephone numbers for friends and family members throughout the U.S.

History and genealogy buffs may enjoy the **Minnesota Digital Library “Minnesota Reflections”** database for images of our region.

**Much More Is Available!**
To use the online databases from a location other than your local library, you must have a library card with a barcode. Contact your local library for information about obtaining a library card. If you do not live in a city with a library, contact Mail-A-Book by telephone at 218-741-3840 or by e-mail at mailbook@arrowhead.lib.mn.us for information about obtaining a library card.

You may be required to enter a "Patron ID" or "User ID" or "Barcode". Use the 14 digit barcode from the back of your Arrowhead Library System Library Card to fill any of these spaces.

Your tax dollars at work

Most of these databases are available to you through the Electronic Library for Minnesota (ELM). ELM databases are funded by the Minnesota Legislature/State of Minnesota; specifically, the MINITEX Library Information Network, State Library Services, the Minnesota state library agency with state appropriations to the Minnesota Higher Education Services Office (MHESO) and the Minnesota Department of Education, and federal Library Services and Technology Act (LSTA) funds under the support of the Institute of Museum and Library Services.

The legislative intent is to provide Minnesotans with the best possible access to information resources across the educational spectrum, including K-12, higher education, state government, and public libraries.

In addition to the ELM databases funded by the State of Minnesota, Biography Resource Center and ReferenceUSA are funded by the Arrowhead Library System and its 29 member libraries.

NoveList is funded by the Arrowhead Library System.
